

27. **BRYNDWR YMCA –  
COMMUNITY FACILITY NEEDS ANALYSIS**

Attached is a copy of a report being considered by the Fendalton/Waimairi Community Board. The purpose of the report is to consider bringing together the proposed needs analysis in Fendalton/Waimairi and the project already underway in Papanui.

It is understood that the Consultant is able to extend the brief to include the Fendalton/Waimairi project at no additional cost to Shirley/Papanui and possibly some saving, and that the project will still be completed late June early July.

One report would be prepared to cover both studies, with results and recommendations reported separately in the main report. Also the Advisory Group would be extended to include representation from Fendalton/Waimairi.
