

20. BROMLEY COMMUNITY RESIDENTS INC

Officer responsible Community Advocate	Author John Shanks, Board Secretary
Corporate Plan Output: Community Advocacy: Residents' Groups	

The purpose of this report is to approve the area which it is proposed that the Bromley Community Residents Inc should cover.

There was in the past an active residents' group covering the Bromley area. However, for various reasons this group gradually ceased to function.

Recently a new group, the Bromley Community Residents Inc has become established and incorporated. This group has worked very closely with the Community Technical Advisor, John Dunphy, with the aim of fostering a group which will be both active and viable. Some boundary adjustments which incorporate a small residential area not included within the boundaries of the former group and which exclude some industrial areas, have been agreed upon with the new residents' group, who write:

"The Bromley Community Residents Incorporated wish to report back to you that they have discussed planned changes to our area to take in the area from Pages Road up to Cuthberts Green which will take in the properties 110 to 160A Pages Road. We are happy to accept this change and look after the residents in this area.

Any further changes you may wish to make we will be happy to discuss with you."

A plan of the area proposed to be covered by the Bromley Community Residents Inc is attached.

The Board resolved on 31 March 1999 to give official recognition to the Bromley Residents Inc.

Recommendation: That the Community Board approve the boundaries to be covered by this organisation as shown in the attached map.

Chairman's Recommendation: That the Officer's recommendation be adopted.
