

## 5. CORRESPONDENCE

### (b) Bromley Community Residents' Inc

The following letter, advising that the Board's offer of underwriting funding of \$1,000 would not be called upon has been received from the Bromley Community Residents Inc.

*"The Bromley Community Residents Inc appreciated the financial support the Community Board granted towards the recent Bromley carnival day.*

*We are pleased to report that the event was extremely successful with between 1500-2000 people attending. As a consequence we are happy to advise that we will not be uplifting any of the \$1000 underwriting approved by the Community Board at its last meeting. Since this carnival we have conducted surveys of the stall-holders and others involved in the project. The feedback has been extremely complimentary and we intend planning another carnival for February next year. We feel that this will become an annual event and a positive way to present the residents group to our local community.*

*The residents group wishes to record its appreciation for the continuing support from the Community Board and staff at the Linwood Service Centre. As a relatively new organisation we are committed to enhancing our community and promoting Bromley as a desirable place in which to live. The Community Board's support is helping us to achieve these objectives."*

#### **Chairman's**

**Recommendation:** That the information be received.
