

20. CENTRAL CITY REVITALISATION PROJECT

At the meeting of the Board held on 4 October 2000 a report from the Board's Seminar meeting on 21 September 2000 was considered. At this meeting representatives of the Central City Revitalisation Project Team were in attendance to provide a presentation on Central City Revitalisation Projects for Community Board members and to provide an opportunity for discussion with Board members on issues arising from this project.

The Project Team was seeking comments or submissions on the discussion document which has been produced to outline the Central City Revitalisation Project.

Board members requested that this matter be brought back to this Board meeting so that the Board could consider its position on this document and consider any comment or submission which it wishes to make. Submissions close on 30 November 2000.

A copy of the discussion document is circulated to Board members with this agenda.

Chairman's

Recommendation: That the Board consider any comments or submissions which it wishes to make on this project.
