

21. ST ALBANS COMMUNITY RESOURCE CENTRE - CHAIRS

Officer responsible Community Advocate	Author Barbara Ford, DDI 354-1707
Corporate Plan Output: Public Accountability 3.2.text.21	

The purpose of this report is to request Discretionary Funding to provide chairs for the St Albans Resource Centre.

An application was received from the Management Committee through the Project Proposals process, however the Board requested a report on other options for funding.

When the centre opened it was given some of the old metal frame/wooden seat stackable chairs. The Management Committee has advised these chairs need replacing with more comfortable seating for those attending courses.

A lightweight seat is available for \$40.00 each and the Committee would like to gradually replace the old chairs with this type. It was suggested that up to 30 be replaced at a total cost of \$1,200.

The balance in Discretionary Fund is \$21,980.

Recommendation: That the Board provide \$1,200 for replacement chairs at St Albans Community Resource Centre.

Chairperson's Recommendation: That staff discuss this further with the Resource Centre Committee, and that they also look at purchasing a suitable trolley for moving the chairs, to ensure compliance with Occupation Safety and Health regulations.
