

8. REDWOOD RESIDENTS ASSOCIATION

Officer responsible Community Advocate	Author Bruce Meder, Community Development Adviser
Corporate Plan Output: Advocacy 6.1.text.47	

The purpose of this report is to amend one of the boundaries of the Redwood Residents' Association. Members will recall that this association was officially recognised at the August meeting. Since then it has been brought to our attention that one of the boundaries of the association does not align with recognised property boundaries.

At a meeting of the association this problem was discussed and it was agreed that the southern boundary to the west of Main North Road be shifted to Northcote Road. This was seen as an interim measure until such time as an association representing the interests of people in the Northcote area could be established. Subsequent to that meeting it has become apparent that a Residents' Association is shortly to be formed in this area and will take Tuckers Road as its northern boundary.

The Chairperson and Secretary of the Redwood Residents Association have agreed that Tuckers Road should constitute the southern boundary of the Association for that portion of its area lying to west the of Main North Road and east of the railway line. See attached map for the detail.

Recommendation: That one of the boundaries of the Redwood Residents Association be amended to run along Tuckers Road from the Main North Road westward as far as the railway line (as per attached plan).

Chairperson's Recommendation: That the officer's recommendation be adopted.
