

13. FITZGERALD AVENUE P5 LOADING ZONE

Officer responsible City Street Manager	Author Peter Atkinson Area Engineer Central, DDI 371 1662
Corporate Plan Output: On Street Management	

The purpose of this report is to seek approval to create a P5 loading zone on the west side of Fitzgerald Street between Tuam Street and Lichfield Street.

The operator of a new food bar at the above location has requested a short term parking restriction along the frontage of their premises. It was proposed to extend a P30 restriction past the site but this was not supported by the nearby neighbours. The proposal is to create a P5 loading zone immediately in front of the premises.

The proposed restriction is supported by the Parking Operations Manager.

The Hagley/Ferrymead Community Board has also considered this report and supports the recommendation below.

Recommendation: That a loading zone with a time limit of 5 minutes be created on the western side of Fitzgerald Avenue commencing at a point 20 metres measured in a southerly direction from a point opposite the southern kerbline of Lichfield Street and extending in a southerly direction for a distance of 5 metres.

Chairman's Recommendation: That the above recommendation be adopted.
