

4. **WAIMAKARIRI DISTRICT PLAN
NOTIFIED WITH COUNCIL DECISIONS**

Officer responsible Associate Director of Policy	Author Diana Plesovs Planner, Planning Policy, DDI 3711805
Corporate Plan Output: Regional and District Plans and Policies	

The purpose of this report is to advise the Resource Management Committee that the Christchurch City Council lodged a number of submissions on this plan, including seeking consistency between the two adjoining territorial authorities on the airport noise contour. This noise contour seeks protection of the airport from residential encroachment at 50 dBA Ldn.

As Waimakariri District retained the noise contour at 55 dBA Ldn, the City Council has lodged a reference to the Environment Court. Officers already lodged the reference as the closing date was 16 March.

Chairman's

Recommendation: That the information be received.
