

9. BARBADOES STREET RESIDENT CAR PARKING SPACE

Officer responsible City Streets Manager	Author Peter Atkinson, Area Engineer Central, DDI 371 1662
Corporate Plan Output: On Street Management	

The purpose of this report is to seek Board approval to extend an existing area, designated for resident's cars only, to include an additional vehicle.

A request has been received from the resident of one of the older houses on that section of Barbadoes Street where it is not practical to provide any off street parking. In accordance with Council policy it is proposed to extend the existing resident car parking on the western side of Barbadoes street an extra car space to the south. The area of the extension to the resident's cars only space is presently unrestricted. It is an area where there is extensive on street parking.

The proposed extension is supported by the Parking Manager.

Recommendation: That a parking space for vehicles displaying a resident only sticker be created on the western side of Barbadoes Street commencing at a point 32 metres measured in a northerly direction from a point opposite the northern kerbline of Chester Street and extending in a northerly direction for a distance of 6 metres.

Chairman's Recommendation: That the recommendations be adopted.
