

## 25. POPLAR STREET RESIDENT PARKING AREA

<b>Officer responsible</b> City Streets Manager	<b>Author</b> Peter Atkinson, DDI 371 1662
--	---

The purpose of this report is to create additional resident parking spaces on the western side of Poplar Street.

Poplar Street is a small access street which runs between Tuam Street and Lichfield Street. Adjacent to the street is a mixture of activities including a range of dwelling units. There are few off street parking facilities in this locality and there is a high demand for the limited number of residents car parks in this street. It is proposed to extend the existing resident parking area by an additional two spaces. The additional spaces will reduce the extent of the existing P30 area to the south of Lichfield Street.

This proposed residents car parking area has the support of the adjacent property owner and the Parking Operations Manager.

- Recommendation:**
1. That a parking area for vehicles displaying a resident only car park sticker be created on the western side of Poplar Street commencing at a point 30 metres measured in a southerly direction from a point opposite the southern kerblines of Lichfield Street and extending in a southerly direction for a distance of 12 metres.
  2. That the existing 30 minute parking restriction in the above described area be deleted.

**Chairman's Recommendation:** That the above recommendation be adopted.
