A seminar for Board Members was held on Saturday 14 July for the purpose of identifying opportunities for enhancing the Board's advocacy role within the community.

The facilitated session was also to enable Members to identify any shortcomings in the present Board's objectives, and the associated performance indicators.

At the conclusion of the seminar it was agreed that individual Members inputs would be analysed with a view to noting themes of concern, and opportunities, and that these would be further considered at a later seminar session.

It now remains for the Board to agree on a suitable date for the next session. The experience of utilising a Saturday morning appeared to be acceptable to Members who attended on 14 July.

### **Chairman's**

**Recommendation:** That a follow up Board seminar be held at 9.30am on Saturday 4 August 2001.
