

6. PHILLIPS STREET – PARKING RESTRICTION

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer, DDI 272-2625
Corporate Plan Output: On Street Management	

The purpose of this report is to gain Board approval for the installation of a parking restriction in Phillips Street.

The takeaway business at the corner of St Asaph Street and Phillips Street is experiencing difficulty with vehicles being parked for long periods of time outside the business. This small business is reliant on passing traffic and local workers to be profitable.

The restriction is along the business frontage and does not restrict parking or access to any other property or business.

Recommendation: That the parking of vehicles be restricted to a maximum of 10 minutes on the north side of Phillips Street commencing at a point 6 metres from its intersection with St Asaph Street and extending in an easterly direction for 18 metres.

Chairman's Recommendation: That the recommendation be adopted.
