

1. INSPECTION OF QEII POOLS REDEVELOPMENT PROJECT

The meeting will be preceded by a tour of the QEII pools redevelopment project. Members and staff are asked to park their cars in the public car park at QEII Park and then assemble in the main foyer at 2pm, prior to moving to the Glass House, where members may leave their bags and papers before proceeding on a tour of the QEII pools complex, after which members will return to the Glass House for the Committee meeting.

The Chairman considers that members would benefit from a further inspection of the project, as it is currently at an interesting stage, particularly with the partial demolition of the existing 50m pool area in progress.
