HEATON STREET RESIDENTS' COMMITTEE - DEMOLITION OF DWELLING 146 HEATON STREET

A request has been received from the Heaton Street Residents' Committee for speaking rights to seek the variation to the St George's Special Hospital Zone, to amend an error which resulted in the property at 146 Heaton Street being incorporated in the zone.

St George's Hospital now plans to demolish the 146 Heaton Street dwelling as part of the hospital's driveway redevelopment.

The dwelling was the first house to be constructed in Heaton Street in 1913 and is seen by the Residents' Committee as being a historic homestead. The dwelling is not listed in the City Plan as a classified heritage building.
