ATTACHMENTS

The following documents are attached:

- Schedule of Projects for consideration.
- The Board's Objectives and Performance Indicators.
- Additional information reports.

BACKGROUND

The projects on the schedule have been obtained from various sources, generally, from the items provided by the public at the public meeting in September; deputations to the Board during the year; community groups and/or individuals; Board members; and staff. A number of items are a continuation of projects from the previous year. It will be recalled that an additional \$40,000 was given to each Board specifically to support existing community workers employed by not for profit organisations, or the employment of new positions, either Board funded or other organisations. It was indicated at that time that the additional funding would allow Boards to fund such positions for up to three years, thereby giving the positions security for that period and opportunity to develop the project. This funding needs to be allocated at this time.

The Council has again also allocated for each Board area, \$40,000 for Strengthening Communities. The Board can allocate this during the year.

PREPARATION OF SCHEDULE

The Schedule has been prepared to provide a brief overview of each project. Additional supporting information, where necessary is provided in attached reports.

Many of these projects were included in the schedule of Project Proposals submitted by the Board in September to the various Business Units. At that time the Board prioritised and ranked the priority one projects. Those priority one projects that were not picked up by the Business Units, have been included again in the schedule, showing the priority one rankings.

Advocacy staff have given a priority ranking to projects within their areas of responsibility. These rankings do not weight one units or teams projects against other units/teams, but are included simply to give an indication to the Board of how staff see the projects. The criteria used has been based on alignment of projects to the Board's objectives and relevant Council policies.

FUNDING BREAKDOWN
