

8. HAZARDOUS WASTE ACCEPTANCE CRITERIA - BURWOOD LANDFILL

Officer responsible City Water and Waste Manager	Author Kevin Roche, DDI 371-1536
Corporate Plan Output: Solid Waste	

The purpose of this report is to inform the Subcommittee of the report on hazardous waste acceptance criteria for the Burwood Landfill considered at the May meeting of the City Services Committee.

At the meeting of the City Services Committee on 8 May 2001 the attached report was considered by the Committee and the following recommendations adopted for consideration by the Council at its meeting on 24 May 2001:

1. *That the Council adopt the enhanced landfill acceptance criteria, as proposed in this report (Attachment 1).*
2. *That these criteria be put into effect upon completion of a negotiation/education programme directed at affected companies with a target date of the end of September 2001.*
3. *That the Legal Services Manager be asked to investigate options for imposing penalties.*
4. *That an education programme be arranged to inform householders of the appropriate disposal method for common household wastes.*
5. *That the report be also referred to the Canterbury Waste Subcommittee for recommendation to other councils.*

In view of the involvement of existing member councils in forwarding waste to the Burwood Landfill and the desirability of common approaches for the new proposed regional landfill the City Services Committee requested that the matter be placed on the agenda for the meeting of the Canterbury Waste Subcommittee on 14 May 2001.

Recommendation: For discussion.

Chairman's

Recommendation: That each participating council consider the proposed new landfill acceptance criteria with a recommendation for adoption by this Subcommittee.
