| Officer responsible City Streets Manager | Author Brian Boddy, Area Engineer Fendalton, DDI 372-2724 |
| Corporate Plan Output: Capital Works Programme | |

The purpose of this report is to request that the Board approve the publicity plan for the renewal of the kerb and channel in Wai-iti Terrace for distribution and public comment.

Wai-iti Terrace is on the capital works programme to have its kerb and dish channel renewed in the 2001/2002 financial year. Different options have been considered and following a resident survey the proposal shown on the **appended** plan has been drawn up. As shown, it is proposed to leave the existing threshold at the Clyde Road intersection in its present form.

It is also proposed to remove the remaining purple crab apple street trees and replace them with Magnolia grandiflora to match the existing predominate species of street tree in this section of Wai-iti Terrace.

Recommendation: That the submitted publicity plan be approved for distribution.

Chairman's Recommendation: That the foregoing recommendation be adopted.
