

7. MOORAY AVENUE - PROPOSED NO STOPPING RESTRICTION

Officer responsible City Streets Manager	Author Brian Boddy (Area Engineer Fendalton), DDI 3772724
Corporate Plan Output: On-street Parking Management	

The purpose of this report is to request that the Board approve the installation of a no-stopping restriction on the north side of Mooray Avenue to the west of its intersection with Midhurst Street.

A request has been received from residents for a no stopping restriction to be installed on the north side of Mooray Avenue to the west of its intersection with Midhurst Street. This would improve the visibility and sight distances for vehicles turning right out of Midhurst Street into Mooray Avenue. The Area Engineer has discussed the proposal with the resident in the corner property who is agreeable to its installation.

In the interests of improving traffic safety at this intersection, the no stopping restriction should therefore be installed.

Recommendation: That the stopping of vehicles be prohibited at all times on the north side of Mooray Avenue commencing at the intersection of Midhurst Street and extending in an easterly direction for a distance of 20 metres.

Chairman's Recommendation: That the foregoing recommendation be adopted.
