At the February meeting of the Community and Leisure Committee a list of outcomes and issues that had been identified at a seminar on the 31 January 2002 was put before the Committee. It was agreed that a group of officers would work on these and focus them more on identifying outcomes, and the appropriate actions to achieve those outcomes, and bring them back to a meeting of the Community and Leisure Committee. That work has now progressed, and set out in Attachment 1 is a list of those outcomes and issues, and a description of what is happening currently, what else needs to happen, and a timeframe.

Recommendation: That the Community and Leisure Committee outcomes/programme be received, and be used both as a work programme and as a means of measuring the success of the Committee in achieving the outcomes that it seeks over the three-year term.

Chairman's Recommendation: For discussion.
