

19. LOCAL GOVERNMENT BILL - CITY COUNCIL SUBMISSIONS

Responsibility Legal Services Manager	Author Peter Mitchell, DDI 371-1549
---	---

Further to the report of the Legislation Subcommittee attached are submissions in respect of matters which have arisen since the Subcommittee met.

I believe it would also be useful that an elected member be authorised to approve any late technical submissions to be included in the Council submissions before they are sent to the Select Committee by Friday 22 February 2002.

The Committee could also give consideration to who should represent the Council before the Select Committee when its submissions are heard.

- Recommendations:**
1. That the attached additional submissions be approved and added to the City Council's submissions.
 2. That an elected member be authorised to approve late technical submissions.
 3. That consideration be given to who should represent the Council before the Select Committee at the hearing on the submissions.

Chair's Recommendation: Not seen by the Chair.
