

15. FENDALTON ROAD – TENDER EXTENSION

Officer responsible City Streets Manager	Author Kevin Roche, DDI 941-536
--	---

The purpose of this report is to seek the Committee's approval to delegate to the Land Transport Subcommittee consideration of the tenders for the reconstruction of Fendalton Road and recommendation on acceptance of a tender direct to the 25 July 2002 Council meeting.

BACKGROUND

As a consequence of requests from the contractors pricing the above project, the closing date for tenders has now been extended by one week to close on 3 July 2002. As this is unlikely to allow sufficient time for analysis of the tenders before the meeting of the Sustainable Transport and Utilities Committee on 9 July 2002 approval is sought for the Committee to delegate this function to the Land Transport Subcommittee which would then report direct to the July Council meeting.

Staff

Recommendation: That the Sustainable Transport and Utilities Committee delegate to the Land Transport Subcommittee consideration of the tender results for the reconstruction of Fendalton Road and recommendation on acceptance of a tender direct to the 25 July 2002 Council meeting.

Chairman's

Recommendation: That the above recommendation be adopted.
