--	--

The purpose of this report is to present the annual report from the Resource Management Service.

The Resource Management Service is one of the specialist services provided by the Christchurch Community Law Centre. The Service responds to requests from the community for advice and information on resource management, environmental and planning related issues. It aims to help groups and individuals overcome barriers to participation in resource management processes through education work, information clinics and the provision of free advice.

CHAIR'S COMMENTS

It is pleasing to see the Community Law Centre receiving a grant of \$45,000 from the Ministry for the Environment.

It is noted that in the next financial year there will be a number of calls on the Environmental Services Unit's budget.
