

2. STRATEGIC DIRECTIONS - ALAN BYWATER, TEAM LEADER

Strategic Directions are the peak statements of the Council's strategic intent. They will indicate what the Council aims to contribute to achieving the Community Outcomes.

Community Board members participated in a workshop on the initial work carried out by staff on 10 February 2005. The Strategic Directions have been further developed and this seminar provides Community Board members another opportunity to provide feedback before the draft Strategic Directions are considered by Councillors. The draft Strategic Directions will be the subject of a major consultation process alongside the draft Community Outcomes in May.
