Strategy

Invitation to Greater Christchurch UDS Forum meeting

On behalf of the Greater Christchurch Urban Development Strategy Forum I take pleasure in inviting you to our last meeting for 2005 to be held from:

**3pm, Monday, 5 December at Our City O-Tautahi,
Cnr Oxford Terrace and Worcester Boulevard,**
followed by wine and food.

Our guest speakers will be:

- 3pm to 3.30pm - **Dr Anna Stevenson**, of Community and Public Health, on the Health Impact Assessment completed on the Greater Christchurch UDS. She will talk on how the HIA can inform the strategy about how people can live happier and healthier lives.
- 3.30pm to 4.30pm - **Stuart Crosby**, Mayor of Tauranga, on Smart Growth Bay of Plenty, a management strategy similar to the Greater Christchurch UDS. He will speak on how Smart Growth is benefitting participating councils in addressing growth.

You are welcome to sit in on the earlier session with Dr Stevenson, who is presenting her report to the Forum, but Mr Crosby's first-hand talk on Smart Growth, from 3.30pm, may better inform you as elected members.

RSVP Thursday, 1 December, to Forum Secretary, Warren Brixton,
on email warren.brixton@ccc.govt.nz or phone 941 8439

The Forum members and I look forward to meeting you on the day.

Kind regards

Bob Parker, Chairman of the Greater Christchurch UDS Forum, Mayor of Banks Peninsula
