

2. DRAFT SOLID AND HAZARDOUS WASTE MANAGEMENT PLAN

The City Water and Waste Unit will present the Draft Solid and Hazardous Waste Management Plan 2005 including a progress report on meeting Council targets and a list of key actions for discussion. Noteworthy is an option to provide “wheeliebins” for kerbside collection of recyclables and organics. Staff are asking for Council endorsement of the Draft Plan so it can be considered at the 6 October Council meeting.

Presenters: Mark Christison, Simon Collin and Tony Moore
