

3. PROTOCOL FOR SURFACE WATER MANAGEMENT

11AM-11.30AM

Jenny Ridgen, Environmental Scientist, will provide a PowerPoint presentation on the Protocol. It has been developed to provide an agreed approach on how CCC and ECan will work together to achieve integrated catchment management. The Protocol is intended to be a “living document”, and will act as a guide for Council processes as the first integrated Catchment Management Plan (ICMP), for South West Christchurch, is developed.
