### PURPOSE OF REPORT

### EXECUTIVE SUMMARY

2. The approval of proposed new road and right of way names is delegated to Community Boards.
3. The Subdivision Officer has checked the proposed name against the Council's road name database to ensure it will not be confused with names currently in use.

#### **Cavendish Grove Subdivision: St Lukes Street**

This subdivision will create 16 new residential allotments with 14 of them gaining access via a mutual right of way off St Lukes Street (refer **attachment**). The subdivision also vests a recreation reserve in the City Council. Within the small enclave created by St Lukes Street all road and named rights of way have Saints as the common theme, including St Johns Street off which St Lukes Street runs, there are six roads and rights of way named for Saints. For this subdivision, the applicant company has proposed the name St Monica Lane as their first preference for the name. Three alternatives have been supplied, St Bruno Lane, St Dominic Lane and St Justin Lane.

### FINANCIAL IMPLICATIONS

4. There is no financial cost to the Council. The administration fee for road naming is included as part of the subdivision consent application fee, and the cost of name plate manufacture is charged direct to the developer.
