

## 2. HARAKEKE STREET – PROPOSED KERB AND DISH CHANNEL REPLACEMENT

The Consultation Leader (Brian Boddy) sought approval to distribute the intended publicity plan for the renewal of the dish channels in Harakeke Street from Rochdale Street to the northern end of the road.

Members noted the lack of success in securing funding to enable the undergrounding of overhead services to occur as part of the project and of the residents' request for the work to therefore now proceed without the undergrounding taking place.

A view was expressed that, notwithstanding this outcome, the work should be delayed while efforts were made to find the funds required to complete the job in its entirety.

The Board **decided** that the publicity plan be approved for distribution.

(Note: Mark Kunnen asked that his vote be recorded against the above decision.)
