

8. LONG TERM COUNCIL COMMUNITY PLAN

The Board considered a briefing report on the requirements for preparing Long Term Council Community Plans proposed by the Local Government Bill presently before Parliament.

Mention was made of the implications of the Bill on the business sector and the viewpoint was also expressed that the intended process covered by the report was too premature and should await the enactment of the legislation.

It was **decided** therefore that any further work by the Board on its input into the Long Term Council Community Plan be deferred until the Local Government Bill is enacted.
