

#### 4. PUBLICITY AND PROMOTION – FENCING OF SWIMMING POOLS ACT

The Committee **received** a draft communication strategy for publicising the dangers that swimming pools (and spa pools) pose for young children. The project objective was to develop a spring/summer campaign to alert pool owners, property owners and home occupiers of their obligations under the Fencing of Swimming Pools Act 1987 and the Building Act 1991.

The Committee **resolved** that the Environmental Services Unit fund the balance of \$4,097 needed to complete the campaign.
