

5. 40KM/H PART TIME SCHOOL SPEED ZONES

The City Streets Manager reported on the inclusion of Templeton School in the 2002/03 part-time school speed zone programme.

Trial evaluations of the scheme have proved to be very effective in reducing speeds outside schools, and the roading “environment” is perceived to be safer. Consultation with the school, the community and local residents will follow.

In **receiving** the information, the Board expressed its support for the scheme.
