

## 1. PETITION

A petition was received from residents of McFaddens Road east who are concerned about the increase in traffic along their street and Esperance Street. They requested that some investigation be carried out, and would eventually like to see kerb build outs constructed.

The Prayer of the petition read:

*“We, the undersigned residents of McFadden’s Road (east), that section between Cranford Street and Croziers Road hereby petition the Christchurch City Council to implement vehicle speed control measures in our area of McFadden’s Road.”*

*We also seek input to the design and location of any measures proposed for the purpose of speed control.*

The Board **received** the petition and requested staff to report to a future meeting on the issues raised in the petition.
