

17. LICHFIELD STREET: PARKING RESTRICTIONS

The Committee considered a report from Malcolm Taylor, Traffic Engineer, City Streets Unit seeking approval to change the parking restrictions on the northern side of Lichfield Street west of Colombo Street now that the construction in this area is nearing completion.

The report advised that the 'construction zone' in front of the Ballantyne shop in Lichfield Street was no longer required and suggested that it be replaced with a 'P5 loading zone for goods service vehicles only' which would now be more appropriate.

The Committee **resolved**:

1. That the existing parking restrictions on the northern side of Lichfield Street commencing at its intersection with Colombo Street and extending in a westerly direction for a distance of 87 metres be revoked.
2. That a 'loading zone goods vehicle only time limit of 5 minutes' be created on the northern side of Lichfield Street commencing at a point 22 metres from its intersection with Colombo Street and extending in a westerly direction for a distance of 15 metres.
3. That parking meters with a time limit of 60 minutes be installed on the northern side of Lichfield Street commencing at a point 46 metres from its intersection with Colombo Street and extending in a westerly direction for a distance of 33 metres.
