

13. NORTHERN ROADING OPTIONS SCOPING STUDY – STUDY RELEASE AND DECISION PROCESS

The Committee considered a report from Stuart Woods, City Streets Unit, advising the Committee of the imminent receipt of the consultant's completed report on the Northern Roading Options Scoping Study, and proposing a mechanism for dealing with the report.

The report provided details of the proposed release dates and a decision process.

The Committee **decided**:

1. That the Committee endorse the procedure in the report for receiving and dealing with the consultant's completed report for the NROSS study.
2. That staff offer to provide a briefing on the report with interested groups following the report to the Sustainable Transport and Utilities Committee meeting on 26 November 2002.
