

21. HILLS ROAD/AKAROA STREET – GIVE WAY CONTROL

The Board received a report seeking approval to install a Give Way control on Hills Road at its intersection with Akaroa Street.

Board members requested that the triangle of empty land be planted to tidy it up. The Information Manager, City Streets, advised that this was a temporary measure and that this intersection formed part of the NROSS study which was due for more extensive work in the future.

The Board **resolved** that a give way control be placed against Hills Road (left turn) at its intersection with Akaroa Street.
