

8. REPORT ON REMOVAL OF TREE LOCATED IN THE STREET OUTSIDE 25 CLAREMONT AVENUE

The Board received and considered a report from the Greenspace unit seeking approval for the removal of a street tree. The tree is not a protected tree and it is not a health and safety issue, hence approval was sought.

The Board **resolved:**

1. That the tree be removed and not replaced.
2. That the Board raise the issue of new development impact on existing trees and the environment with Jane Parfitt, General Manager City Environment and Peter Mitchell, General Manager Regulation and Democracy Services.
