

6. THE GROYNES SHARED CHRISTCHURCH CITY COUNCIL/NORTH CANTERBURY FISH AND GAME COUNCIL FACILITY INVESTIGATION

The Board considered a report on the current status of the investigation into the proposed shared Christchurch City Council / North Canterbury Fish and Game Council facility at the Groynes.

The Board **resolved**:

1. That the Board note the Greenspace Unit's intention to develop the concept plan for the Groynes, and that six monthly reports be submitted to the Board on the development plans and progress on timeframes.
2. That the same reporting procedure be applied in relation to (1) above, in respect to development plans at Roto Kohatu.
3. That a joint seminar meeting be held with the Fendalton/Waimairi Community Board, relevant Council units and Transit New Zealand, on open space issues south of the Waimakariri River common to both Boards.
