

19. DRAFT ARTWORKS IN PUBLIC PLACES FIVE-YEAR PLAN CONSULTATION

The Board's feedback was sought regarding the draft Artworks in Public Places Five-Year Plan for consultation.

The Board **resolved**:

1. To provide the following feedback:
 - There is a lack of clarity as to what the scope of the matrix and the funding criteria relate to.
 - Ongoing maintenance costs need to be factored into the matrix - should be included as part of the criteria and not just referred to in an appendix.
 - The plan should be included in the Strategy and Policy document, so that everything relating to artwork in public places is in one document.
 - Outcomes should include seeking participation from private and corporate patrons (not just referred to in appendix).
2. To request a report detailing a stock-take of artworks currently located in the Spreydon/Heathcote community and those planned for the area, including details relating to maintenance costs.
