

13. CONTRACT NO 2000/01-240 GENERAL CARRIAGEWAY MAINTENANCE AREA 3

The Committee considered a report from Peter McDonald, Pavement Maintenance Team Leader seeking approval to extend this contract by a further year to 30 June 2005.

This contract is for the reactive maintenance of the carriageways, concrete channels, hard surfaces in the carriageway medians and the resurfacing of the carriageway pavements within the contract area.

The contract was awarded to Fulton Hogan Canterbury Limited for three years from July 2001, with provision for two, one-year extensions for a maximum of five years. The contract value for the three year period was \$2,652,894.

The report noted that the contractor had generally performed to a high standard and met all the key performance indicators set out in the contract and had agreed to the extension of the contract using existing rates.

It is intended that the one year extension be funded from the Maintenance budget and the Carriageway Sealing and Surfacing budget at a total value of \$980,000.

The Committee **resolved** that the existing contract be extended for a further one year.
