

9. TRANSFUND - SUBMISSION ON THE ALLOCATION OF FUNDS PROCEDURES PROPOSALS

The Committee considered a report from Tony Lange, Asset Engineer, Transport and City Streets Unit informing it of the consultation occurring on Transfund's recently released allocation procedures proposals and seeking approval to a process for the preparation of a submission to the July Council meeting in respect to this.

The report outlined background to the consultation document released by Transfund (copy tabled) which related to the additional funding expected to become available from the 2005/06 financial year, for a period of 10 years, from a new fuel tax commencing in April 2005.

The Committee **decided**:

1. To delegate to the Land Transport Subcommittee the recommending of a submission on the Transfund Allocation Procedures proposals to the 29 July 2004 Council meeting.
2. That the Land Transport Subcommittee meet on 27 July 2004 to achieve resolution one.
3. That a copy of the proposed submission be circulated to all Sustainable Transport and Utilities Committee members by email as soon as completed and prior to the Council meeting on 29 July 2004.
