

#### 4. **RICCARTON WIGRAM TRANSPORT AND ROADING COMMITTEE REPORT OF 17 FEBRUARY 2004 MEETING**

The Board considered the report of the Transport and Roading Committee meeting of Tuesday 17 February 2004.

The Committee received reports on the Chappie Place traffic signal installation and two pedestrian crossing works, the Brynley Street roundabouts and the request to signalise the Yaldhurst Road/Racecourse Road intersection.

A request from the Fendalton/Waimairi Community Board to seek a review of the current (Council) policy on resurfacing of vehicle entranceways (where there is no footpath) was supported by the Committee.

The Board **resolved** that Mike Mora be its representative at the Sustainable Transport and Utilities Meeting (9 March 2004) where the policy was to be reviewed.

The Committee agreed to support the placement of parking restrictions in association with the reconstruction of the Buchanans Road/Carmen Road intersection. The Board's decision is recorded in Clause 14 of this report.

The Board **received** the information.
