

9. TRANSIT NEW ZEALAND - LAND TRANSPORT PROGRAMME 2004/05

The Committee received a report from Stuart Woods, Principal Transport Planner Team Leader, City Transport Unit seeking confirmation on a process for the lodgement of a submission to Transit New Zealand on the Transit New Zealand draft transport programme 2004/05 for state highways.

A copy of the programme had been separately circulated to members for their information and submissions on the programme are required to be lodged with Transit New Zealand's regional office by 31 March 2004.

The report proposed that a submission be prepared by the Land Transport Subcommittee for reporting to the Council's 25 March 2004 meeting for ratification.

The Subcommittee **decided** that the Land Transport Safety Committee prepare a submission for approval by the Council at its meeting on 25 March 2004.
