7. PROPOSED ROD DONALD BANKS PENINSULA TRUST

The Board considered a report seeking comment on the Draft Trust Deed and Draft Statement of Intent for the proposed Rod Donald Banks Peninsula Trust.

Board Member Claudia Reid declared a conflict of interest in this item due to her involvement as an Initial Trustee and took no part in discussion or voting, but responded to questions to provide further information to the Board.

The Board comments on the draft documents included mention of the Objects of the Trust, the use of obsolete political boundaries, representation and interest groups, and powers of Trustees. The two points the Board was specifically concerned with related to the provision allowing Trustees to be employees of the Trust, and the reconsideration of the boundaries of the Trust area. The Board commended all involved in setting up the Trust for the work done so far and expressed enthusiasm for the project.

The Board **decided** to receive the report and ask that staff note the comments made before referring them to the Council subcommittee for consideration and then to the Council when it considers the report on the adoption of the Draft Trust Deed and Draft Statement of Intent.

10 Cont'd

- **Head to Head Walkway**
The Board **decided** to request that a briefing be arranged to provide an update on the Head to Head Walkway, including the provision of information on the percentage of the track that is already formed.
- **Sign of the Kiwi**
The Board **decided** to request information on the progress of the Leasing arrangements for the Sign of the Kiwi.
- **Environment Canterbury**
Members discussed the Government decision to appoint Commissioners to temporarily govern Environment Canterbury and **decided** to request information on how Commissioners will interact with the Board in future. Members were informed that they could consider making a submission to the Environment Canterbury Draft Annual Plan 2010/11 on matters of concern.
- **Lyttelton Toilets**
Members raised the issues with the Lyttelton Toilets and ongoing concerns regarding the standards.

The Board **decided** to request information from staff regarding the required levels of service for cleaning and supply of consumables at the public facility.

- **Rapaki Area Problems**
Members were informed again of the ongoing problems at the Rapaki Bus Shelter and adjacent area:
 - The bus turnaround area remains unsealed resulting in drainage problems and potholes forming.
 - The bus shelter suffers serious ongoing graffiti problems and has been damaged by a bus having difficulty turning in the unsealed area.
 - Board members reported that the Rapaki Runanga believe the speed limit in the Rapaki area needs to be reduced from 60 km/hour to 50 km/hour.

Members questioned the previous response from staff, as roadside areas not far from the bus shelter had been sealed. Members were advised this bus terminal area caters for 62 bus arrivals and departures per week.

The Board **decided** to request information as to when the road in this area is scheduled for renewal or resurfacing with a view to including the sealing of the Rapaki bus shelter turnaround area at the same time. The Board also decided to include this matter in its submission to the Draft Annual Plan and a suggestion was made that the Rapaki Rūnanga could make its own submission to the Draft Annual Plan on this issue.
