- (b) Staff also produce a communication plan that is approved by the Community Board. This plan to detail how the community will have input into the process and to address concerns that have been raised thus far through the consultation process. By involving the communication team, there is a level of independence from the project team. The original project team would take an advisory role and be one part of the process.

15 Cont'd

- (c). The Board appoint a subcommittee of three Board members to work with staff on both of these plans to input into the type of consultation that will occur with the community. This will ensure that the Board gives direction and is happy with how the consultation will be undertaken.

- (e) It is noted that an external independent party will be appointed to peer review the questions.
