**PART A – ITEMS REQUIRING A COUNCIL DECISION**

**1. BOWER AVENUE - STREET RENEWAL PROJECT AND TRAFFIC AND PARKING AMENDMENT (BOWER AVENUE) BYLAW 2010**

This item was presented to the Council meeting on 22 April 2010 by way of a Chairman's Report.

**2. EFFINGHAM STREET/ENDEAVOUR STREET – ANGLE PARKING AND PROPOSED NO STOPPING RESTRICTIONS**

<b>General Manager responsible:</b>	General Manager City Environment, DDI 941-8608
<b>Officer responsible:</b>	Transport and Greenspace Unit Manager
<b>Authors:</b>	Lorraine Wilmshurst/Michael Thomson, Network Operations

**PURPOSE OF REPORT**

1. The purpose of this report is to seek the Board's approval that angle parking be installed on Effingham Street and that the stopping of vehicles be prohibited at any time on the west side of Effingham Street and the south side of Endeavour Street.

**EXECUTIVE SUMMARY**

2. The Council received a request from a resident of North Beach that an investigation be undertaken into parking at the shopping area on the corner of Effingham Street and Endeavour Street. The investigation has highlighted the need to mark angle parks on the west side of Effingham Street at the shopping area and restrict parking at the entrances to the Service Lane that runs round the rear of the shops from Effingham Street to Endeavour Street. Please refer to the **attached** plan.
3. Both Effingham Street and Endeavour Street are local roads. Effingham Street has a 16 metre carriageway at the shopping area and the Endeavour Street carriageway is 14 metres wide. There is a six metre wide service lane that extends from Effingham Street to Endeavour Street behind the businesses. There is an existing No Stopping restriction at the intersection of Effingham Street and Endeavour Street
4. The majority of vehicles visiting the shopping area angle park in Effingham Street. As it is not currently marked, this parking is rather haphazard with the angle of parking being mainly dependant on which direction a vehicle comes from. However, the legal requirement is that vehicles must park parallel to the kerb unless signs or markings indicate that angle parking is permissible

**2 Cont'd**

5. Vehicles currently parallel park in front of the tavern at the Effingham Street end of Endeavour Street. The visible tracking path for vehicles turning left into Endeavour Street from Effingham Street indicates that vehicles cut the corner. This raises concerns that a turning vehicle may collide with the rear of a vehicle angle parked in Endeavour Street. This proposal therefore, is to retain parallel parking in Endeavour Street.
6. The proposal is to mark 12 angle parks along the Effingham Street frontage, retain the No Stopping restriction on the intersection, place parking ticks in Endeavour Street to indicate parallel parking along this frontage and install a No Stopping restriction across each end of the service lane.
7. These measures will legalise the angle parking along Effingham Street and the no stopping restriction will retain access to the service lane for delivery vehicles. Marking parking ticks to identify the parallel parking in Endeavour Street will remove the possibility of a vehicle sweeping into Endeavour Street and colliding with the rear of an angle parked vehicle.
8. The Council Policy "Parking-Kerbside Parking Limit Lines", dated 23 October 1996, restricts limit lines to be installed in this type of location. Clause 3 of this policy allows community boards to make a request to the Council for the installation of these lines.
9. A consultation letter and plan explaining the proposed angle parking and no stopping restrictions was sent to the property and business owners of the block of shops at intersection of Effingham Street and Endeavour Street and to the North New Brighton Residents' Association. For details refer to paragraphs 19 to 21.

**FINANCIAL IMPLICATIONS**

10. The estimated cost of this proposal is approximately \$300.

**Do the Recommendations of this Report Align with 2009-19 LTCCP budgets?**

11. The installation of road markings and signs is within the LTCCP Streets and Transport Operational Budgets.

**LEGAL CONSIDERATIONS**

13. The Community Boards have delegated authority from the Council to exercise the delegations as set out in the Register of Delegations dated April 2008. The list of delegations for the Community Boards includes the resolution of parking restrictions and Traffic Control Devices.
