Staff advised that due to the change of priorities arising from the earthquakes of September 2010 and February 2011 this request had been noted but no in depth work had been possible. Staff also advised the Board that the request would have wider implications for traffic and parking management in the area and would require extensive work.

Board members discussed the matter at length and explored a number of aspects with staff including previous parking related reviews in the locality. As a consequence, the Board **decided:**

- (a) to respond to Mr Cary regarding his request for P120 parking restrictions in College Avenue and to also place the response in context of the post earthquake situation and priorities across the city; and further

After receiving staff advice and discussing the various options available, the Board decided that due to the unique layout of Mr Jones' driveway, the commercial activities over the road from the residential properties in the area, safety concerns when entering Mr Jones' driveway and the frequent requests to the Enforcement Unit to help with enforcing the parking laws, improved visibility of parking bays was required.

The Board **resolved** that parking ticks be installed in Kendal Avenue as follows:

- (a) South from the driveway of No 158 Kendal Avenue to the driveway of No 164 Kendal Avenue on the west side of the street.
- (b) South from the driveway of No 159 Kendal Avenue to the intersection with Arlington Street on the east side of the street.
