#### Notes:

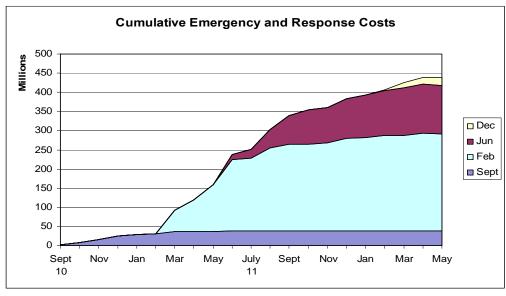

- 1) Reflects a \$78.7 million allocation of SCIRT costs across the infrastructure areas, partially offset by \$24.9 million of further SCIRT costs incurred in May.
- 2) Accrued recoveries exceed costs for the month due to the allocation of SCIRT costs. This has resulted in a more accurate estimate of accrued recoveries.
- 3) Reduction due to Wastewater below ground costs transferred to capital.
- 4) Majority of the month's expenditure is ongoing Wastewater below ground response costs. The \$4.4 million increase in net cost to Council includes a \$2.3 million adjustment to the accrued recoveries in the EOC area, which were previously overstated.
- 5) Reduction due to Wastewater below ground costs relating to Lateral, CCTV and pipe works transferred to capital.
