Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?
Why should this be done?

① I think protection for notable buildings in and around Christchurch should be more substantial and more widely applied.

Far too many of the character buildings have already disappeared.

The appeal of Christchurch is not just in its gardens and parks, but also in its interesting architecture, especially its older architecture.

Not all old buildings are attractive, but quite a few are either attractive or interesting or both.

I have lived in Christchurch almost all the time since 1951, and the modernization of the city has not all been good. Those notable buildings that do still survive are more important than ever for the fact that relatively few remain.

② Also, the city's suburbia should not be allowed to creep relentlessly outwards and gobble up more and more rural land. One of the refreshing features of Christchurch is that it has a western boundary. That boundary is now being breached, with the threat of "development" now approaching the McKenzie Residential * School! Stop this.
