6. We would like to help the residents who want to keep the old Edgeware Pool site for the community. I myself was angry on the destruction of this pool. I use to swim there in my single days, I use to live in Holly Road and around merivale. I was brought up in Bishopdale. (some residents may not even cars so this area is important to the community)

7. We have stock and a marketing plan of action to organize a number of events at key locations we are willing to work with the Old Edgeware Pool group to help them also raise money for their project.

- Bishopdale Shopping Complex was suppose to be covered years ago, cold / windy
Father lives in Bishopdale
