**Re: Request to the Christchurch City Council
for Re-Kerbing to be done to our street.**

When we moved into No 2 Makora Street in 2006 we were surprised to see that nothing had been done to renew the kerbing of this street.

We are now asking all Makora Street residents to fill in the bottom part of this sheet with your name address and signature.

Please deposit these slips into our letterbox at No 2 and we will then approach the Council.

If we start pushing the Council we will get somewhere. Of course we will also request through the Council to remove all overhead wiring.

K.W. Adriaens

.....
We, Mark & Pip Ullrich the undersigned as Makora Street residents request the Christchurch City Council to consider our request for the re-kerbing of this street and also the removal of all overhead wires.

In 1996 we understand a promise was given to re-do the kerbing within eight years. This is now twelve years ago. We are virtually the only street left in the surrounding area with the old guttering. We believe the time has come now to start this project as soon as possible.

Yours faithfully

Name: Mark & Pip Ullrich

Address: 9 Makora St
Fendalton, Chch

Signature: P. Ullrich

Hi there, I just wanted to say I think it is fantastic what you are doing and the best of luck with the request as it is totally overdue and unacceptable that our street has not been upgraded. I tried contacting the council for 2 months last year with phone calls etc and to no avail, they just passed me on to other people whom would not return calls etc and then I got busy again with work and children and so didn't take it any further unfortunately. So well done and good luck!

Thanks

Pip Ullrich
